#### BIDDING MILWAUKEE ADIEU.

THE ENJOYABLE VISIT OF THE LIEDER-KRANZ TO THAT CITY.

. THE CRADLE OF MUSIC IN THE NORTHWEST-THE MUSIKVEREIN AND THE ARION-

> SUNDAY NIGHT'S CONCERTS BY THE VISITING SINGERS.

[BY TELEGRAPH TO THE TRIBUNE.] Milwaukee, July 10.-No feature of the Lieder anz's excursion to the West is likely to linger longer in the memory of those who participated in it than the visit to Milwaukee, to which city a regretful adieu was said at 4:30 o'clock this afternoon.

Every feature of the stay here has been enjoyed to the full, partly because of the refreshing change of scene which the pretty city, with its many costly homes, its Superb lake front, its air of gentleness and culture, presented to Chicago; partly because of the nifest sincerity and heartiness with which the risitors were greeted on their arrival and enter-tained during their stay by the representatives of the Musikverein or Musical Societ as it is popu-larly called out here, outside of exclusively German Milwaukee is strongly German, as nearly one knows, and though the principal industry the city is beer-brewing, it would seem as if the dominant element in the population had really to a great extent, accomplished the mission of idealization which we are wont to hear so much about when German-Americans get together and talk about their social institutions.

Milwaukee is the cradie of music in the North-Its principal German society has been in ex over forty years, during which it has cultivated the part song, cantata, oratorio and even Gernan opera, and put an impress of intelligence, taste and affection upon the cultivation of the art here which is obvious to even the most hurried observer. It spoke last night in the discriminating applause rewarded the New-York singers, and in the encomiums which were pronounced at the "commers" which followed; it was expressed again this morning in the well-written and judicious criticisms in the newspapers, especially those printed in German. It is shown, moreover, by the fact that this city has managed for nearly a decade to support a regular series of operatic representations in the These representations are polyglot, e given under the direction of Mr. Hinrichs in New-York and Philadelphia; and, to judge by the warranted by the vocal and isstrumental forces and the stage at the command of the management, but they are interesting as evidence of the general love for music among the populace and as the obvious fruits of the labors of the musical ploteers of forty ago. The artistic manifestations are much like in some of the cities of Germany, not striking a of their superior expellence, but most amiable comising because of their honesty and the per-ness of the appreciation given to them by the

vasiveness of the appreciation given to them by the people.

The public is as yet unspoiled and unaffectedly sincere in its admiration for the things which appeal to its emotional nature. So far as I have been able to judge, it does not overestimate its accomplishments, but feels an honest pride in its present actions and in the evidences to be given on all hands of influences which went out from the labors of the generations that are gone. It has cultivated choral music composed for mixed voices more assidiously than the part 3-ng for mea's voices, and in consequence the Musik Verein has a worthy rival in the Arion, which is also a mixed chorus, but makes use of the vernacular. Mr. H. M. Mendel, for many years the president of the Musik versin, is now the president of the Arion, and Arthur Weld, who came here from Exston a few years ago, is its conductor. The director of the Musik Verein is Mr. Luening, a capable and conscientious musician.

All the averagements for the concert of the Lieder-

Verein is Mr. Lucuing, a capable and conscientious musician.

All the arrangements for the concert of the Lieder-kranz which took place on Sunday night were in the hands of the Musikverein. They were all extremely satisfactory to the singers, though much disappointment was felt because of the wretched acoustic properties of the theatre in Schlitz Park, in which the concert took place. This theatre is a large wooden pavillon, with a small stage. There is no resonance in the audience room, and the stage being built with open wings and files, much of the sound was swallowed in the mysterious region behind the footlights. The society never sang better, in spite of the fact that the sterm of the afternoon had exercised a depressing effect upon the spirits of all concerned and bardened the air with moisture; but the Milwankee people who crowded the place were still left in ignorance of the volume and richness in quality of the tone given out by the choir. The amount of money realized for local charities cannot be stated, as there has been no settlement with the manager of the theatre. Whatever the sum turns out to be, it will be administered by the Musik Verein.

the manager of the theatre, out to be, it will be administered by the Musik Vercin.

The forenoon of to day was spent by the visitors a carriage drive through the city and obbligate visits to two of the large breweries, where they were received and entertained. At half-past 4 they turned their faces eastward, stopping at Chicago only long enough to effect a transfer to the special train left there last Monday morning, which started in the evening for Cleveland, where the society will take part in the twenty-seventh festival of the North American Shengerbund.

# KNICKERBOCKER TENNIS TOURNAMENT.

MANY INTERESTING CONTESTS-THE SINGLES WILL PROBABLY BE FINISHED TO-DAY.

The Knickerbooker Tennis Club's open handicap tournament was continued yesterday afternoon. Many interesting contests were played and the second round was reached, leaving only sixteen players out of the original forty-nine. Fischer and Parker, the scratch men, are still unbeaten. Sydney Smith had a narrow escape from defeat at the hands of Hall, the latter being at one time close to victory, but a long reach and pienty of "sand" finally brought Smith to the front. The Yale men, Burshard and Lockwood, who won the doubles in the tournament last year, are still in the race, and little Wyeth, the Lenox boy. still continues to win. The second round will be completed to-day and the doubles will probably be

#### DIRECTORS THINKING HARD.

WORRIED ABOUT SUNDAY OPENING OF THE FAIR

THE DECREASED ATTENDANCE FORCES THE NECESSITY FOR DECISIVE ACTION UPON THEM-IS EMPEROR WILLIAM COMING!

Chicago, July 10 .- Since the attendance of paying

at the Fair began to dwindle below the 50, onsiderable thinking as to the best course to pursue the interests of the Exposition, and the wage-earning multitude for whom the officials have borne the de unclation of Sabbatarians. The principal reason for he decreased attendance on Sunday is the discovery that the working people and others who have time only on Sunday to see the Fair, cannot see more than half the show for the same price of addission charged on week days when every section of the Fair is open to the public. The people have decided to stay away altogether on Sunday and try to see the Fair on other days, or they are waiting for the directors to reduce the admission fee to 25 cents on Sunday. Many of the broad-minded directors have ome to the conclusion that the people will come with the uniform price of admission on Sunday is fixed at the scamen manning the oars. A sainte was fired Sunday opening with one exception, is advocating the harbor. As soon as the ship reached the wharf half price for half a show. Yesterday's attendance of a procession composed of Scandinavian societies took 43,500, in spite of the fine weather until evening, will up its march to the Park, halting at the statue bring the directors to the acting point this week. A Leif Ericson, where a stand had been erected for special meeting of that body will be held, it is understoot, before next Sunday. The whole Sunday opening Denmark, and Professor Olsen, of the State University, situation will be discussed and the financial aspect con-Some directors will be in favor of closing the gates Sunday because they believe a Sunday fair is a Thorsen. failure, not from any fault of their own, but because the Exposition Company cannot compel State and foreign Commissioners, individual exhibitors and the United States Government officials, to keep their exhibits open to the public on Sunday. The men it charge of buildings and exhibits need a rest on Sunday, and their employers will not engage help specially for Sunday work. For this reason many of the exhibits are closed.

Pressure will be brought to bear on the directors. also from concessionaires on the Midway Plaisance, who are complaining more vigorously than last month that they are lesing money and cannot continue to pay the twenty-five per cent of gross receipts to the Exposition. These concessionaires will meet to present an ultimatum to the directors. They say that toward the Fair. On the arrival of the ship at Jackthey will practically close their attractions if they do not get a reduction in their percentage; but it is rison. Director-General Davis and other city and probable they would cor-promise if the directors would. World's Fair officials. probable they would compromise if the directors would make the Sunday admission 25 cents, bringing two or three times as many people into their section of the park, which is the favorite resort for most of the in time

E. L. Roche, alternate National Comm South Carolina, has always advocated Sunday opening. but he seld this morning that he had changed his mind. "It seems to me," said the Southerner, "that after the fight that was made in the commission to secure Sunday opening, people would show their appreciation by coming to the Fair on that day. The ittendance, lowever, is growing smaller on the Sab Sunday opening. Everybody that comes in the grounds goes right to the Plaisance to spend the day. rather than sightseers. I hope the National Commismatter some time this week. We should have, I think, a 25-cent rate admission. It would pay, in my pinion, to have the Plaisance only open and charge admission fee of 25 cents to that part of the Fair."

When the National Commission was called to order at noon to-day by President Palmer, Sunday opening came to the surface in a resolution offered by Mr Hundley, of Alabama. The resolution calls upon the to enforce the rule promulgated by the commission which in effect calls for the clowing of the gates of the Fair on Sunday. At Mr. Hundley's request the matter was made a special order for to-morrow to follow the Sunday opening matter which will be brought up for consideration.

That Emperar with the sidering the advisability of visiting the World's Fair there is little doubt. An attache of the German Commission this morning gave it out that the Department of State of the German Government dressed a letter to the German Minister at Washington several weeks ago, directing him to make inquiries of all the German Consuls in America as to how they come here.

ceived," said the attache, "and they were almost unanimous in the statement that Emperor William would be accorded a most friendly and hearty welcome. think, largely upon whether the Army bill passes Should it pass, I am confident he will come. According to press reports he has a majority of thirty in the German Parliament, and it looks as though

the bill will pass."

Continuing, he said the Kalser's wish to see the Fair was well known. But if it were certain he could come, he could scarcely do so before the finish

of Army manoeuvres in September.

Herr Wermuth, the German Imperial Commissioner, would say nothing regarding the letters of inquiry to the German Consuls in America. He said he had heard nothing officially, and would not until he reached Berlin, about the end of this month.

It has been said that a French family could live well on the waste of an American family. The foundations have been laid at the World's Fair grounds of a structure in which it is intended to teach the American housewife how to prevent this woful waste and how to utilize the cheaper meats and waste and how to utilize the cheaper means coarser food products in the production of appetiting and nourishing dishes. This exhibit of scientific cookery, it is announced to-day, is to be known as the Rumford Inn. and is properly placed under the wing of the Anthropological Building, in connection with the Bureau of Hygiene and Sanitation, at the extreme southern end of the Fair grounds. It is under the auspices of the State of Massachusetts, is not run for profit, and will be a part of the exhibit not ran for pront, and will be a part of the exhibit of that State. Mrs. Ellen H. Richards, professor of chemistry in the Massachusetts Institute of Technology, is the responsible head of the exhibit. It was Mrs. Richards who, with the assistance of Mrs. Mary Himman Abel, wife of Professor Abel, of the University of Michigan, at Ann Arbay, exhibition University of Michigan, at Ann Arbor, established some three years ago in Boston an experimental kitchen for the wholesome cooking of the cheaper foods. Their object was both educational and philan thropic, not charitable. The food thus prepared was offered for sale to people in lodgings and to working offered for sale to people in longings and to working girls and others for luncheons at prices below the cost of private purchase and preparation. The kitchen has proved successful, and had a steady growth slice its inception. The inn will be under the direct man-agement of Miss Maria Daniel, of Boston, well known as a lecturer upon and demonstrator of the theory and practice of economy and sanitary cookery. She brings with her a corps of trained assistants.

The following New York people are staying at the Hotel Windermere: Mr. and Mrs. L. De Forest, Alfred Poey, Frank R. Lawrence, Frank Lawrence, C. R. Truax, John H. Stevenson, Jr., F. D. Schingler and Mr. McCastney. Trunx, John H. St H. J. McCartney.

H. J. McCartney.

Chief Allison, of the Manufactures Building, this morning ordered Robert H. Ingersoll & Bro., of New-York, exhibitors of noveltles, to remove their display from the building. The New-York firm was found to be selling their goods now on exhibition for immediate delivery. In direct violation of a recent order by Lirector-General Davis, which says that all goods on display must remain as part of the exhibit until the close of the Fair, sales being permitted only on condition that the delivery shall not be made until after November I. Both foreign and American exhibitors are attempting to secure a modification of this order permitting them to sell duplicates of their exhibits, and have addressed a communication to that effect to Colonel Davis. The matter is still before the Director-General, but it is hardly probable that he will grant the concession.

Buffalo, July 10 (Special).-Arrangements are being made for a bufalo Day at the World's Fair. The made for a buildle Day at the World's Fair. The celebration will be held in the New-York State Buildings until the end of the week. All the finals will be played on saturday, unless rainy weather interferes. Among those entered are Valentine Hall, H. M. Ellings, W. A. Larned and Richard Betwens. The present holder of the cup. O. Stevens. The present holder of the cup. O. Stevens. The present holder of the cup. O. Stevens are expected to make similar tion, and other cities are expected to make similar requests. For several days ex-Senator Donald Mo-

Naughton, of the State World's Fair Commission, has been consulting with Commissioners Henry Koons and Henry W. Box, of this district, with the result that Wednesday, August 23, was to-day decided upon a Buffalo Day. Mayor Bishop and other prominent officials are expected to take part in the exercises. Nothing definite has been settled upon yet, but it has been suggested that Mayor Harrison, of Chicago, in company with Mayor Hashop and the World's Fair Commissioners of New-York, shall receive the Buffalonians on their arrival. Speechmaking would follow, and then there might be a dinner in the splendid white and gold banquet hail of the building. The celebration will be practically under the management of the local board of World's Fair Commissioners.

THE VIKING SHIP WELCOMED TO MILWAUKEE. Milwaukee, July 10.-The scenes incident to the reception of the spanish caravels last week were repeated today when the Viking ship entered the harbor and moved up the river to the same dock at which the caravels were moored. The piers and heidges were crowded with people as the old-looking craft came up, but their cheers were deadened by the discordant notes of hundreds of steam whisties. The Viking ship arrived at Milwankee yesterday, but was anchored in the bay until about 10:30 o'clock this morning, when the revenue cutter Andrew Johnson, with the Reception Committee, and the tug Welcome. carrying a band and twenty sailors from the Seamen's spoke in Norwegian and English. Speeches were made by Governor Peck, Mayor Koch and

Home and about the city in trolley cars and carriages. Chicago, July 10.—The Viking ship will arrive in the harbor at the White City on Wednesday afterno from Milwaukee. The boat will anchor off Evanston early on Wednesday morning. The arrangements the reception are being made by the Com-General from Norway to the Fair, General Christopher Rava, and a committee with which the various Scandinavian societies in the city are co-operating. The United States Government has ordered its ships now stationed at Chicago to take part in the recep the Michigan and the Blake and scores of excursion boats, yachts and tugs. The National salute will be fired and the prows of the flottlia will be turned sen Park the crew will be received by Mayor Har

World's Fair officials.

Captain Magnus Anderson was at the Tremon's House from Thursday night until early yesterday morning. He left his hoat at Detroit and arrived her in time to witness the reception given to the caravels. The Vliding ship will be anchored about 100 feet from the battleship Illinois, where she will remain through out the time of the Exposition.

PLANS FOR A CONFERENCE OF DEAF MUTES. The deaf mutes of this city and vicinity met in St. Ann's Church, at Eighteenth-st, and Fifth-ave., last night, to welcome W. E. Harris and Francis Maguire, of Belfast, Ireland. They are on their way Maguire, of Belfast, Ireland. They are on their way to the conference of deaf and dumb citizens soon to be held in Chicago. The two delegates represent a school and mission in Belfast. Last night the visitors explained, in their sign language, the objects of their

the Rev. John Chamberlain and Dr. Thomas Gallaudet the Rev. Dr. Kraus, rector emeritus, and of the church. After the The Manhattan Literary the people met socially. THE MARQUIS IMPERIALI'S ENTERTAINMENTS. Bar Harbor, Me., July 10.—The Marquis Imperial gave a reception to a large party of friends on board the Italian flagship Etna, from 2 to 5 o'clock this afternoon; a dinner party at the Kebo Valley Club, and a hop at the Malyern this evening.

THE PRESENT MRS. HOPPER ACTS

IN THE COMPANY. Despite deptate it appears that a decree of divorce was granted by Judge Pratt on June 29 to Mrs. Ida St. Hopper from De Wolf Hopper, the actor, on statutory grounds. There was no defence put in in the suit, but Mr. Hopper appeared in court. papers in the case were scaled by order of the court. It is said that the defendant was prohibited from marrying again in this State for three years. His marriage to Miss Edna Wallace is said to have taken

place in New-Jersey.

The report published yesterday that Miss Della Fox was named as co-respondent in the recent De Wolf Hopper divorce suit has added new interest to the case. As soon as Miss Fox read the story she appealed to Mr. Hopper to make a public denial This he promis and correct the report. the statement was not given out until last night. the mean time Miss Della Fox had placed the matter in the hands of Howe & Hummel to straighten

Mr. Hummel was seen yesterday at his office and said: "This story about Miss Della Fox is absolutely also and wholly unfounded. I have just seen the papers containing the divorce proceedings and can state positively that it was not Miss Della Fox, but one of the chorus girls in the DeWolf Hopper Opera Company who was named as co-respondent. course, am not at liberty to tell who the real corespondent was, but it was not Miss Fox." Will Miss Fox institute suit for libel?" he

asked. "Oh, no. Mr. Hopper has promised

to make a public denial of the charge, and it will appear in the Aspers to morrow." Why did Mr. Hopper not make this denial sooher?"

"Mr. Hopper placed the matter in the hands of B. D. Stevens, his manager, and for some reason it was not attended to."

Just at that moment Mr. Hopper himself entered the room, and took part in the conversation. "This report is false and has not a word of trath in it," he said. "Some one is trying to make trouble between Mrs. Hopper, Miss Della Fox and me. I cannot account for the animus behind that published report in any other way. The truth is this, as far as I understand it. Miss Della Fox has been suffering for some time from a bad sore throat which has finally compelled her to give up her work for the present Dr. Crosby, her physician, has forbidden her to sing and tells her that she will lose her voice entirely if she does not immediately stop singing. He said furthermore that she would have to submit to an operation on her vocal chords. Miss Fox is now ill at the Vendome and is scarcely able to speak aloud.

"When Miss Fox made known the doctor's orders t Mr. Stevens, my manager, he of course granted her the resulte she needed, although at a great sac rifice to him from a commercial point of view. the question was who would we get to fill her place in the company. My wife was proposed, but both she and I objected to this plan, for it would be a terribly trying ordeal to Mrs. Hopper to try to role which Miss Fox had created. Besides my wife has not had the experience on the stage which Della has and is terribly anxious and apprehensive about it.

"Mrs. Hopper is now under contract with Mr. Frohman, who kindly gave her a little respite in order that she might be married. One of the reasons why we objected to Mrs. Hopper taking the role was the our company, for, on purely business principles, if any commercial value should accrue to Mrs. Hopper, Mr. Frohman would naturally want the benefit of it. We were surprised when we learned that, without our knowledge, Mr. Stevens had seen Mr. Frohman and obtained his consent.

"Now some one is trying to discover some ulterior motive in this change of actresses, and the charge has been made that Mrs. Hopper was jealous of Miss Fox and wanted her out of the company. This is absurd and cruel to both women. Miss Fox has exchanged pictures with my wife and has been more than kind to her. She has actually given Mrs. Hopper nearly all her own costumes and has coached home in Malace call.

Mr. Holmes was born in are on the most delightfully cordial terms. I enDorchester on January 5, 1830. After two years tertain the most kindly sentiments toward Miss Fox and I will do all in my power to correct this un-iortunate rumor. The report was first published in

In your issue of last Thursday you stated, in the stary of Mr. De Wolf Hopper's divorce, that Miss Della Fox was the co-respondent. I desire to state that this Fox was the co-respondent. I desire to state that this is absolutely untrue, and request that you give pub-

# FIGHTING THE ESSEX GERRYMANDER.

REPUBLICAN ARGUMENTS BEGUN BEFORE THE NEW-JERSEY SUPREME COURT.

Trenton, N. J., July 10.—Argument was begun this infermoon in the case brought by the Essex County Republicans to test the legality of the Assembly Dis-trict gerrymander. The application made by the Republicans asks the Supreme Court to issue a mandamus, directing the County Clerk to prepare an official ballot next fall, so that all the voters in the county shall vote for all the eleven members of Assembly to which the county is entitled. The argument to day was before Justices Depue, Lippencott and Reed. R. Wayne Parker opened the argument by exhibiting a map showing the Assembly District lines and describing the inequalities in the ap-portionment which gives to some districts three or four times a population of others in the same county. He declared that the law passed in 1891 was uncor stitutional. Mr. Parker had not completed his argument at the hour of adjournment. The case will probably occupy all of to-morrow, and possibly part of Welminday, The Republicans are represented by Cortlandt and R. Wayne Parker, Thomas N. Mc Carter and John R. Emery, Colonel E. Livingston Price, ex-Judge Frederick W. Stevens and Alian L. McDermott appear for the Democrats.

THE BURGLAR AT THE CASING CAUGHT AT LAST. The burglar who has been robbing the dressing rooms at the Casino was captured early vesterday morning. william Jones, a negro. When taken, Jones was coming out of the Casino with another mai, who got away. Jones had his arms full of stolen property, including a mandelin, a clarinet, piccolo, two pairs of shoes, a pair of pink tights, several combs and other articles. The thieves had even taken a pudock and key off a door and had stolen that. William Jones, a negro. When taken, Jones was coming

Jones is nineteen years old, but has no home. As near as can be learned, he and his companion went into the Cosino while the roof garden was open on Sunday night. They concealed themselves until everybody had gone homand then they began to ransack the dressing-rooms. As they stumbled down the staircase in the darkness, the night watchman heard them, and captured Jones without much trouble. In the Jefferson Market Police Court he

# THE SUPREME COURT VACANCY.

IT SHOULD GO TO A ROBUST NEW-YORKER.

From The New-York Recorder.

This city alone has very many able men who would make athorable judges. Among them may be named Frederic R. Condert, James C. Carter, F. L. Stetson, Tresident Cleveland's law partner, and others equally eminent. Then up in Vermont there is Mr. E. J. Phelps, ex-Minister to England and senior connect of the Government before the Behring sea Arbitration Commission. The suggestion of Mr. Wayne MacVengh for the place on the ground that his appointment would gratify the Muswumps borders on the judicrous. Judge Blatchford's chair is far too big for the diminutive Pennsylvanian. It should go to some robust New-Yorker.

A CHANCE FOR MR. CARLISLE.

From The Hartford Courant.

Now a suggestion comes from Richmond, Va., that the name of the new justice may be John G. Carlliste. The distinguished Kentuckian is a lawyer by profession and he has been told a great many times by his admirers that he has a judicial mind. If it be true that he wants to get out of the Cabinet, and that Mr. Cieveland is not unwilling to have him get out, here is the chance.

Danbury, Conn., July 10.—Mrs. Kate A. Griswold, a corest manufacturer, with factories in New-York City and pathel, Conn., died at the latter place yesterday, aged sixty. She had been in the business thirty years and had amassed a fortune.

WOULD KEEP THE HIB.

WOULD CHARLES THE HIB.

For The Utica Herald.

For the place on the supreme bench made vacant by the death of Judge Blatchford, E. J. Phelps, of by the death of Judge Blatchford, E. J. Phelps, of by the death of Judge Blatchford, E. J. Phelps, of New-York, are mentioned. The selection of any one of these would bonor the Court and the President, but would be up to the high mark of excellence maintained by President Harrison in his choice of judges. LET HIM BE CONFIRMED BEFORE OCTOBER.

The President will have ample time to consider the matter. It is to be hoped, however, that the appointment will be made and confirmed in season for the new justice to take his seat when the court meets in October.

men be allowed to rest for the balance of the evening.

C. B. Moore and wife of Omaha, Neb., roomed in the ill-fated structure. A man had an engagement with Moore at 1:30 this afternoon. He was seen to-night and said he had met Mr. Moore just as the fire broke out and that the latter had gone upstairs to see what the damage would be. This was the last seen of Mr. Moore. His wife was there also, and as the caller left the woman started upstairs. Mrs. Moore was seen on the roof after the fire had gained great headway and she was injured by falling while attempting to come down a ladder. Mrs. Moore was taken out of the grounds, but nothing has been heard of her husband and he is still among the missing and thought to be dead.

of her husband and he is still among the missing and thought to be dead.

While the bulk of the fire fighting forces was engaged in their hazardous work in the doomed building, a scene of great bravery was enacted in a little shed between the barn and the color department in the rear of the cold storage building, directly in the path of the hot air and dense smoke, swept southward by the wind. Captain William J. Sanderson, of the Columbian Guards, assisted by ten of his company, Engine Company No. 59, from the Stock Yards, and several willing visitors, had placed three leads of hose upon the shed, and in the midst of a storm of fire and smoke stood their ground, fighting like demons to keep the fire from the paint shop, filled with inflantitie paints, oils, variables and flimsy material used in deconations. Had the fire reached the paint shop it would have quickly spread to the storchouse of the Wellington Catering Company, and from there on there would have been no balking the progress of the despite the train shops and dairy barns to the south even of the Fark. The men stood their ground for an hour, and after seeing their object achieved retired with blistered taces and burned clothes. The act was enecred by thousa dis of people.

was cheered by thousa ds of people
The Dominion of Canada loses about \$3,500 by the fire. Three hundred boxes of line cheese, a large quantity of roots and vegetables and some large Restigouche River salmon, belonging to the Government, were stored in the building and were, of course, a total loss.

THE LOSS TO PROPERTY \$650,000.

The loss of property will probably amount to over \$650,000, but nobody except those who have suffered financially, is thinking of the money loss when all around-at the fire and guard station house, the emergency hospital and the morgue, on the highways of the Fair—are evidences of the Exposition's deadly baptism of fire. The sun was shining its brightest from a blue sky at 1:30 o'clock and the pleasure-seeking people passed under the shadow of the cold storage warenouse. Saddenly a ber, William Sheppard, son of the guide-book publisher, saw a tongue of flame escaping from the cupola, or observatory tower which formed the topmost section of the warehouse. From the ground te that first flame there were 300 feet of space. The boy gave the alarm and in a few minutes the heroes from the fire stations at the Casino and the Terminal Depot came dashing along with hose cart, engine and hook and ladder. The altitude of the blazing observation tower and its isolation from the great main roof made the work of the firemen hazardous and slow from the outset. Before the firemen got to work several painters. house, the emergency hospital and the morgue, on

from the great main roof made the work of the firemen hazardous and slow from the outset. Before the firemen got to work several painters, electric light men and others employed in the building ascended by the clevators to the main roof and afterward climbed up the spiral staircase which was built around the great death trap of a smokestack until they reached the balcony underneath the buging cupola. They found the fiames had gone too far to be smothered by the chemicals at hand. They waited for the firemen to join them, thinking they could be of assistance. Cantain Harkness, of the Guards, ordered Sergeant Douglass to take eight men up to the blazing tower and aid the firemen. The sergeant gave his superior officer one look, such a one as the officers of the Light Brigade at Balakiava may have given the commanding general when he gave the order to charse into the mouths of roaring Russian cannon. But the sergeant went, and eight guards followed to do their duty. By a strange chance all are alive to-night to tell the tale. The French Commissioner, on hearing of the

The French Commissioner, on hearing of the fire, sent a detachment of twenty-five marines to assist the guards and regulars in preserving order. Director-teneral Davis was on the scene early, but soid not a word, watching the destruction of the big building, however, with much anxiety. The National Commission, which was in executive session, adjourned hastily upon hearing of the catastrophe, and the members went over to the scene of the fire.

THE DEATH OF CAPTAIN FITZPATRICK.

The most sublime deed of heroism in that tragic hour was performed by three firemen in an attempt to save the life of their superior officer Cptain James Fitzpatrick, the assistant fire chief at the Fair. He was on the roof when the tower at the Fair. He was on the roof when the tower fell over without warning, and his leg was broken besides being crushed by falling timbers. Being on the east side of the roof he thought he was in no immediate danger, as a truck ladder was close to the edge ready for any emergency. The captain erawled towards the edge of the roof, already on fire, and held out his hand in a mute aoneal for help. The hand was seen by Captain Kennedy, of Hook and Ladder No. 5. He and two of his men climbed up the ladder fighting their way through and Ladder No. 5. He and two of his menclimbed up the ladder fighting their way through
the flames, which burst through the whole east
side and through the roof, while three streams
of water were turned on the brave men to keep
their elothing from catching fire and their skins
from pecling off. The fiery gauntlet was run
unflinchingly to the top. Captain Kennedy climbed
over into what seemed a bed of flame, but he
reappeared in a few seconds dragging the body
of Captain Fitzpatrick. A rope was fastened
about the unconscious and dying captain's body
and with difficulty he was lowered to the ground
enveloped in flames. The noble rescue although
it only resulted in saving the captain's body from
further mutilation by fire, was watched by thousands of people in breathless suspense and rewarded by a mighty cheer when the body reached
the ground to be tenderly laid on a stretcher
and borne to the hospital in the ambulance
lift the doctors shook their heads doubtfully
when the burned and broken form was carried
in. The captain never recovered consciousness
and died at 9 o'clock.

# THE PRESIDENT FISHING.

GREATLY BENEFITED BY HIS DAY'S SPORT.

HIS RHEUMATIC ENEMY APPEARS TO BE ROUTED -THE PARTY MAKES HAVOC

Buzzard's Bay, Mass., July 10.—All grounds for anxiety as to President Cleveland's health were dissi-pated to-day. He went fishing. Better information as to his condition than dectors' bulletins and the assurances of the few intimate friends who have seen the President since his isolation at Gray Gables can be gathered from his action to day in routing his old in the middle of the day, and a good sailing breeze prevailed all the time the party was out.

Mr. Cleveland's yacht Ruth, Captain Bradford Wright, was put in order for the sail in the morning The Ruth is painted white and has a pert clipper look. At is only about twenty-live feet long, and catrigged. It is decked over forward, but its cabin will not afford standing room. It is broad of beam and has plenty of room aft for fishing. In place of the blunt bow of the ordinary catboat, it has a flaredinp prow, which gives a buoyant appearance to it. The start was made at 11:30 a. m. Mr. Cleveland walked down from the cottage to the wharf without the assistance of a came. He walked slowly, and a sight limp was perceptible. Colonel Lamont and Dr. Bryant accompanied him. Mrs. Cleveland and Mrs. Hoyt, the President's si-ter, watched the embarkation from the plazar. Mr. Cleveland cok his sent in the stern by the side of Captain Wright, and the boat was hended for Winn's Point, ten miles down the bay. The party anchored of Abali's Ledge and fished for bass until nearly 3 o'clock. They had good lick with the fish, and ate a basket luncheon before starting for home.

When off Hog Island on its way up the bay the Ruth was overhauled by a saliboat carrying a representative of the United Press. or. Cleveland was sitting on the port rail coatless, and with an old straw hat shading his eyes. He looked contented and happy, and there was a smile on his lips. He was not thinking of office seekers and wondering who would be after him next, but was watching a school of porgles which blackened the surface of the water with their fins as they scurried away from the bluefish that were pursuing them.

The President did not look like an invalid, but seemed to be in excellent health. As he acknowledged the salute of the passing bout he was asked, "Wallands and the passing bout he was asked, what had been caught by the party. Delivation of the boat all these a great day. The President purty sould he head of the boat mand the head of the boat mand and the percentage of the salute of the passing bout he was more entinessation of the boat all these a great day. The start was made at 11:30 a. m. Mr. Cleveland walked down from the cottage to the wharf without

The President did not look like an invalid, but seemed to be in excellent health. As he acknowledged the salute of the passing boat he was asked, "What luck!" He replied, "Fair," glancing at a basket full of bass that had been caught by the party. Dr. Bryant, who was halled at about the same time by some friends in another boat, was more enthusiastic over the day's sport. He said, "We've got a lot of em," and waved his hat triumphantly as though it had been a great day. The President's party sailed up beyond Gray Gables, and after cruising around the head of the bay landed at 4:30 p. m.

When the President stepped out of the boat all traces of rheumatism had disappeared. He walked with a quick, easy step and seemed to have received

FIVE VALUABLE DOGS POISONED.

THE SON OF THE OWNER THREATENS TO SHOOT A NEIGHBOR SUPPOSED TO BE THE GUILTY ONE.

Mrs. Adelaide Grinnell, formerly an actress, now livfig at NJ. 124 Oak-st., Brooklyn, is mourning the loss of five pet dogs which were poisoned. The dogs were four hairless Mexican hounds, valued at from \$300 to \$450 each, and a Scotch staghound, valued at 8500. The dogs were all well trained. On Sunday morning about 10 o'clock Mrs. Grinnell left her home with her dogs for an outing. She noticed that they stopped in front of an Oak-st, building and atsomething. Ten minutes later the dogs were dead, showing unmistakable evidence of poison Mrs. Grinnen returned to the place where the dogs had been feeding and picked up a piece of meet which, upon examination, proved to be covered with strychnine. The dogs will be examined in order that the exact cause of their death may be learned. The matter will then be brought to the notice of the society for the Prevention of Cruelty to Animals. The dogs will be buried with honors.

The menbers of the Grinnell family are now inclined to believe that the dogs were poisoned by a neighbor. For some time there has been trouble between the two families on account of a hole which Mrs. Grinnell dug near the fence dividing the two Mrs. Grinnell dug near the fence dividing the two houses. Professor Adler, a musician. Ilving in Calperst. alleges that the neighbor in his presence expressed his intention of poisoning the dogs with arsenic, on account of the trouble he and his wife had with the Grinnell family.

When the death of the dogs became known to Mrs. Grinnell's son yesterday, it was with difficulty that he was prevented from shooting the neighbor by friends.

The dogs took five prizes at the last show of the Westminster Club in Madison Square Garden. Less night the Grinnell house was alled with sympathizing friends. The dogs lay side by side in the kitchen.

TWO ALLEGED INCENDIARIES ARRESTED.

Worcester, Mass., July 10.-Benjamin F. Learned, of Worcester, nineteen years old, was arrested in this of Worcester, nineteen years old, was arrested in this city this afternoon charged with setting fire to the Eddy block, at Webster, which was burned with over \$21,000 loss, July 4. Emory Lawrence, aged twenty-seven, of Webster, was arrested in that town this morning charged with the same offence. Learned kept the store in which the fire originated.

At a meeting of the Roard of Trustees of the Fairmount Park art Association held this day the following mount was adopted:

In coming together at this time for the purpose of giving expression to the sentiment of right experienced in the death of Anthony J. Drevel, President of Fairmount Park Art Association. the Poard of Trustees desires to make known to the citizens of Pailadelphia how greatly and truly were his services to this Association understood.

From the date of organization, revering a residual town twenty years.

make known to the cityens of and truly were his services to this Association understood and valod.

From the date of organization, covering a period of most than twenty year, though engrosed with manifold duties to commerce and the State. Mr. Drevel accepted the presidency of this Association, and throughout his incumbency evined the keenest interest toward the fulliment of the proper objects.

Possessed of a strong personality and occupying the highest social rank, he was invariably contreous and tolerant in debate, and it is not too much to say that his name and repute gave lusters to the Association in which this Board is so personality his contents and the same and repute gave lusters to the Association in which this Board is so personally interested.

It is apparent that in the dender of Mr. Drevel we suffer the loss of a man in every war fitted by education and rank to lead this cramitation, and in deal ring this fatality if is carmestly desired to accentuate his life, his character, his example.

With premonition, perhaps, he frequently expressed a desire to witness the exection of the memorial to isoneral Grant, undertaken by the Association that such was mainly due to his effort in this direction that such was about to be accomplished. It has been willed otherwise but in the work the mame of Anthon L. Drevel, our late honored President, will stund prominently forward.

It is desired that a copy of this minute should be sent to the family of Mr. Drevel, with an expression of official and personal sympathy in their becavement, and that nublements he made in the journals of Philadelphia and New-York.
